We require our service staff that every email and news should be Exam C_C4H410_04 Questions Pdf handled in two hours, Attract users interested in product marketing to know just the first step, the most important is to be designed to allow the user to try before buying the C_C4H410_04 study training materials, so we provide free pre-sale experience to help users to better understand our C_C4H410_04 exam questions.

C_C4H410_04 Study Materials & C_C4H410_04 Exam Braindumps & C_C4H410_04 Dumps Torrent

24 hours online staff service is one of our advantages, we are glad that you are willing to know more about our C_C4H410_04 study guide materials, 100% Free SAP SAP Certified Application Associate **Exam Cram C_C4H410_04 Pdf** Certification Practice Test Questions With Latest Updated & Accurate Answers.

So you can do your decision whether to choose C_C4H410_04 exam dumps or not, Our C_C4H410_04 valid study torrent could cover 100% of the knowledge points and ensure good results for every customer.

Nowadays, many candidates are competing for gaining the C_C4H410_04 certificate, The authority and reliability of our dumps have been recognized by those who have cleared the C_C4H410_04 exam with our latest C_C4H410_04 practice questions and dumps.

Once you apply for our free trials of the C_C4H410_04 study materials, our system will quickly send it via email, Many candidates complain to us they want to get C_C4H410_04 certification since they have failed once or more times.

In addition, the download process is easy, C_C4H410_04 Practice Questions candidates only need to log in our purchase page and download it, which just take a few minutes in total, We make promise that **Exam Cram C_C4H410_04 Pdf** we will not charge for you, you will find no such good service than our company.

We stick to "credibility foundation, service innovation", Our website is here to provide you with the accurate C_C4H410_04 real dumps in PDF and test engine mode.

You may have enjoyed many services, but the professionalism of our C_C4H410_04 simulating exam will conquer you.

NEW QUESTION: 1

How can you add an existing attribute view to the logical view of your analytic view twice?

Note: There are 2 correct answers to this question.

A. Create a derived attribute view.

- B. Copy the attribute view.
- C. Create a derived analytic view.
- D. Rename the attribute view.

Answer: A,B

NEW QUESTION: 2

Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar.

When you are finished performing all the tasks, click the 'Next' button.

Note that you cannot return to the lab once you click the 'Next' button. Scoring occurs in the background while you complete the rest of the exam.

Overview

The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

To start the lab

You may start the lab by clicking the Next button.

You need to deploy an Azure virtual machine named VM1004a based on an Ubuntu Server image, and then to configure VM1004a to meet the following requirements:

- The virtual machines must contain data disks that can store at least 15 TB of data
- The data disk must be able to provide at least 2,000 IOPS
- Storage costs must be minimized

What should you do from the Azure portal?

Answer:

Explanation:

See solution below.

Explanation

Step 1: Open the Azure portal.

Step 2: On the left menu, select All resources. You can sort the resources by Type to easily find your images.

Step 3: Select the image you want to use from the list. The image page opens.

Step 4: Select Create VM from the menu.

Step 5: Enter the virtual machine information. Select VM1004a as the name for the first Virtual machine. The user name and password entered here will be used to log in to the virtual machine. When complete, select OK.

You can create the new VM in an existing resource group, or choose Create new to create a new resource group to store the VM.

Step 6: Select a size for the VM. To see more sizes, select View all or change the Supported disk type filter. To support 15 TB of data you would need a Premium disk.

Step 7: Under Settings, make changes as necessary and select OK.

Step 8: On the summary page, you should see your image name listed as a Private image. Select Ok to start the virtual machine deployment.
