A Datum plans to implement the VDI.

You need to recommend a solution to ensure that the sales office users can access their corporate desktop from a company-owned iPad. The solution must be the most

cost-effective solution today and must ensure that the company meets the licensing requirements of the planned IT strategy.

Organizations can also use VDA to license devices that the organization does not own, such as employees' home PCs and contractor devices.

D: The RDS CAL is the primary license for Microsoft VDI. It offers the flexibility to deploy both VDI and RDS Session Virtualization so that you can provide access to full desktop and shared desktop experiences. You must purchase one RDS CAL for each device or user that accesses VDI. A
