So just come and have a try!

NEW QUESTION: 1

Which approach will provide a listing of the contents in a tar archive?

- A. Use the tar command with -t.
- B. Use the zless command.
- C. Use the find command.
- D. Use the grep command.

E. Use the zlist command.

Answer: A

NEW QUESTION: 2

Wie trägt ein Service-Kunde zur Reduzierung der Festplattenkapazität bei?

- A. Durch Verwalten der Serverhardware
- B. Durch Verwalten der Verfügbarkeit von Mitarbeitern
- C. Durch Übermitteln von Einschränkungen
- D. Indem Sie für den Service bezahlen

Answer: C

NEW QUESTION: 3

The project is part of a program to increase the number of ABC courses that respond to legislation. The program manager has instructed the project manager to deliver the 'e-learning course' incrementally. The project manager has asked the program manager how often the highlight reports are required, and what format the reports should be presented in. Is this an appropriate approach to controlling progress, and why?

- A. Yes, because the project event-driven controls need to align to program controls.
- B. No, because the progress controls should be documented in the project initiation documentation.
- C. Yes, because the approach should support the delivery approach selected by the program.
- D. No, because the program team should review project progress using peer reviews.

Answer: B

NEW QUESTION: 4

Your company is implementing Network Access Protection (NAP) with DHCP enforcement. You need to define which network resources non-compliant client computers can access. What should you configure?

- A. System health validators (SHVs)
- B. Remediation server groups
- C. Health policies
- D. Connection request policies

Answer: B

Explanation:

Remediation server groups are used to specify servers that are available to noncompliant Network Access Protection (NAP) clients for the purpose of remediating their health state to comply with health requirements. The type of remediation

servers that are required depend on your health requirements and network access methods.
