Safety shopping experience- MO-500 pass4sure test answers, Firstly, the key points are completely included in our products, Plantasparaeljardin's brain dumps never cost you much.

**NEW QUESTION: 1**

- A. Option D
- B. Option B
- C. Option C
- D. Option A

**Answer: D**

**NEW QUESTION: 2**

You are creating an app that uses Event Grid to connect with other services. Your app's event data will be sent to a serverless function that checks compliance. This function is maintained by your company.

You write a new event subscription at the scope of your resource. The event must be invalidated after 3 specific period of time. You need to configure Event Grid to ensure security. What should you implement? To answer, select the appropriate options in [he answer area.

NOTE: Each correct selection is worth one point

**Answer:**

Explanation:

Explanation:

Box 1: SAS tokens

Custom topics use either Shared Access Signature (SAS) or key authentication. Microsoft recommends SAS, but key

authentication provides simple programming, and is compatible with many existing webhook publishers.

In this case we need the expiration time provided by SAS tokens.

Box 2: ValidationCode handshake

Event Grid supports two ways of validating the subscription: ValidationCode handshake (programmatic) and ValidationURL handshake (manual).

If you control the source code for your endpoint, this method is recommended.

Incorrect Answers:

ValidationURL handshake (manual): In certain cases, you can't access the source code of the endpoint to implement the ValidationCode handshake. For example, if you use a third-party service (like Zapier or IFTTT), you can't programmatically respond with the validation code.

### **NEW QUESTION: 3**

**Answer:**

Explanation:

Explanation

To block external communications for specific individuals, you should go to the Users page in the Skype for Business Admin center, select the users whose settings you want to disable, and then choose Edit.

After you enable external excommunications for everyone in your company, you can selectively block external communications for specific individuals using these steps. You then choose External communications, and then clear the options as appropriate before saving the changes.
