NEW QUESTION: 1

You just added a business rule component to the components section of the SOA Composite Editor canvas. You open your business process for editing and notice that there is no partner link to the decision service for the new rule component.

What do you do next to make the link appear?

- A. Add an invoke activity to the BPEL model to call the decision service.
- B. Add a partner link to the BPEL model.
- C. Add a business rule component to the BPEL model.
- D. Edit the business rule component and specify the If/then rules or the decision table.

Answer: B

Explanation:

How to Create a Partner Link

To create a partner link:

Oracle BPEL Designer is displayed.

The Create Partner Link dialog appears.

Note:

*A partner link enables you to define the external services with which the BPEL process service component is to interact. You can define partner links as services or references (for example, through a JCA adapter) in the SOA Composite Editor or within a BPEL process service component in Oracle BPEL Designer.

*A partner link type characterizes the conversational relationship between two services by defining the roles played by each service in the conversation and specifying the port type provided by each service to receive messages within the conversation.

NEW QUESTION: 2

Your company plans to use an agile approach to software development.

You need to recommend an application to provide communication between members of the development team who work in locations around the world. The applications must meet the following requirements:

Provide the ability to isolate the members of different project teams into separate communication

channels and to keep a history of the chats within those channels.

Be available on Windows 10, Mac OS, iOS, and Android operating systems.

Provide the ability to add external contractors and suppliers to projects.

Integrate directly with Azure DevOps.

What should you recommend?

- A. Bamboo
- B. Microsoft Project
- C. Microsoft Lync
- D. Microsoft Teams

Answer: D

Explanation:

Explanation/Reference:

Explanation:

Within each team, users can create different channels to organize their communications by topic. Each

channel can include a couple of users or scale to thousands of

users.

Microsoft Teams works on Android, iOS, Mac and Windows systems and devices. It also works in

Chrome, Firefox, Internet Explorer 11 and Microsoft Edge web browsers.

The guest-access feature in Microsoft Teams allows users to invite people outside their organizations

to join internal channels for messaging, meetings and file sharing. This capability helps to facilitate business-to-business project management.

Teams integrates with Azure DevOps.
